About me

Pursuing Bachelor of Technology in Computer Science and Engineering from Lovely Professional University.

An optimistic, creative and responsible person who is always ready to take up new challenges. Can work both an individual contributor as well as a team member

Projects

Hangman Game

It is a guessing game for two or more players. One player thinks of a word, phrase or sentence and the other(s) tries to guess it by suggesting letters within a certain number of guesses

- Execution**
- Word selection
 - Game logics
 - Display hangman
 - Error Handling

Stacks - Python

Fighting game

This game would be played by two players, who would face off against each other in close combat with simple 1 move. The objective of the game would remain the same - to deplete the opponent's health bar and be the last one standing. This game could be played locally on a single computer with having a shareable link

- Execution**
- Project setup
 - Create player and enemy
 - Game rules and logic building
 - Winning statement

Stacks - HTML(canvas), CSS, JavaScript
